OPERA HOUSE BLOCK, MONTPELIER

PARKER'S HAIR BALSAM
Cures itching scalp, dandruff, and keeps the hair from falling out. It is the best hair dressing ever made. Sold everywhere.

Complete Extinguishment.

Rupert—it was a strange case! He left the club one night to go to the opera and was never seen or heard of afterward.

Harold—Disappeared as completely as if the earth had opened and swallowed him up. eh?

Rupert—More so, if possible. In that case he might have left his hat above ground or there might have been a crack left to show where he disappeared, but this fellow, mind you, disappeared as completely as if he had married an authoress.—Puck.

If people only knew what we know about Kodol Dyspepsia Cure, it would be used in nearly every household, as there are few people who do not suffer from a feeling of fullness after eating, belching, flatulence, sour stomach or water-brash, caused by indigestion or dyspepsia. A preparation such as Kodol Dyspepsia Cure, which, with no aid from the stomach, will digest your food, certainly can't help but do you good.

Stickert & Wells, Barre, Wilcox & Gillette, Moretown, W. E. Poole, East Barre, Vt.

Birds and "Old" Coins.

A French physician lately had an opportunity to observe a pointed de Paris which had been lying for several days in the stomach of a child and found that the gastric juice had acted upon the smallest particles of the article, blunting the blade and point and giving the medal a brown color. In this manner might be explained the process used in Italy to produce old coins and medals. Large birds are made to swallow roughly stamped coins with the image of Tiberius or Caligula. After awhile the animals give off again the coins, upon which meanwhile an appreciable layer of patina has formed. This result is apparently due to the action of the gastric juices.—Jeweler's Circular-Weekly.

Coughs and colds, down to the very borderland of consumption, yield to the soothing, healing influences of Dr. Wood's Norway Pine Syrup.

Early and Late.

Plodder (at 6 a. m.)—Hello, Rounder! What are you doing up so early?
Rounder—Hello, old fellow! What are you doing out so late?—Philadelphia Record.

Scratch, scratch, scratch: unable to attend to business during the day or sleep during the night. Itching piles, horrible plague. Doan's Ointment cures. Never fails. At any drug store, 50 cents.

The Center of the Earth.

Of late years the general view has been that the interior of the globe, though partly liquid, is for the most part solid. Some have considered that a section through the earth would show the following:

(1) An outer solid envelope, (2) a semifluid envelope, (3) a fluid envelope, (4) a solid envelope, (5) a solid nucleus. No. 1 results from a reduced temperature only, No. 2 from a pressure and temperature not quite sufficient for liquidation, No. 3 from a temperature sufficiently high to produce complete liquidation, No. 4 from a pressure so great as to prevent even the terrific heat which most certainly exists deep down in the earth from completely liquefying the material on which it works, and No. 5 from a pressure which overcomes completely the liquefying power even of the maximum heat of the interior.

This pressure is estimated to be at the center of the earth 7,180,593,750 pounds to the square foot, a pressure so enormous that no known substance could fuse beneath it. Even hydrogen at the highest possible temperature would under such conditions become as hard as a diamond. Hence it seems probable that, far from there being a vacuum at the center of the earth, there is a basis of intensely solid matter there.—Pearson's Weekly.

Fought For His Life.

"My father and sister both died of Consumption," writes J. T. Weatherwax, of Wyandotte, Mich., "and I was saved from the same frightful fate only by Dr. King's New Discovery. An attack of Pneumonia left an obdurate cough and very severe lung trouble, which an excellent doctor could not help, but a few months' use of this wonderful medicine made me as well as ever and I gained much in weight." Infalible for Coughs, colds and all Throat and Lung trouble. Guaranteed, bottles 50c and \$1.00 at Parlor drug store. Trial bottles free.

Sawdust Graduates.

Most of the circus acrobats and not a few of the rough and tumble comedians of the stage who have graduated from the ring were reared and learned the rudiments of their business in the lumber towns of the northwest. In the "business" these are known as "sawdust towns" on account of the sawmills, which are their chief industry. There are many of these in Wisconsin and Michigan and several in Iowa that have turned out the bulk of the acrobats and tumblers in the business.

In the "sawdust towns" the small boys have exceptional facilities for learning to turn somersaults and hand-springs in the great beds of sawdust that surround the mills. Soon they begin to try the more difficult feats they see done in the shows that visit the towns. After school hours they tumble until it is time to go home and do the "chores." From out of them all there generally rise two or three boys who get the knack of the acrobatic feats, and these work in constant rivalry, each trying to excel the other.

One day along comes a circus, and the best boy tumbler applies for a job and shows what he can do. Perhaps he is given a chance as a "top mounter," or the top man in a pyramid act, because he is light and active. When he gets older, heavier and stronger, he may become an "understander," or the man who holds a mountain of men on his shoulders. And thus he gets to the show business.—Exchange.

Skin affections will readily disappear by using DeWitt's Witch Hazel Salve. Look out for counterfeits. If you get DeWitt's you will get good results. It is the quick and positive cure for piles, hemorrhoids, itching, sore, cracked, and chapped skin. Sold everywhere. Stickert & Wells, Barre, Wilcox & Gillette, Moretown, W. E. Poole, East Barre, Vt.

NO ONE CAN TELL

When or How Help May Come. Why a Correspondent Feels Grateful.

"Ever since I was a girl," says a correspondent, "I suffered from bilious headache and vomiting after meals. When I was forty I began to have rheumatism in my knees and shoulders. In 1899 I had an attack of inflammation of the bowels, and after that I was troubled with chronic indigestion. No medicine or skill of physicians gave me more than transient relief.

"Yet who can tell when or how help may come? I read of the new medicine, Calcaura Solvent, in a pamphlet sent us by an old neighbor who heard how sick I was. At present I have only time to say that this medicine made me what I never expected to be—a well woman—and I write to express my gratitude to the man who discovered the medicine—Dr. David Kennedy."

Calcaura Solvent is not a narcotic to dull the sense of pain but a medicine that cures disease.

If your druggist is out of Calcaura Solvent, send \$1.00 to Dr. David Kennedy, Kennedy Row, Kingston, N.Y., express prepaid. Write for free sample bottles.

The Next Best Thing.

"I trust," said the new member of the school committee, "that you do not hold out to your pupils the misleading hope that each of them may be the president?"

"No, indeed," replied the dominie, "but I do not think that I err on the side of improbability when I teach them that each has a good chance of being a presidential possibility."—Harper's Bazar.

"Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. I quickly secured a bottle of One Minute Cough Cure, giving her three doses. The croup was mastered and our little darling speedily recovered." So writes A. L. Spafford, Chester, Mich. Stickert & Wells, Barre, Wilcox & Gillette, Moretown, W. E. Poole, East Barre, Vt.
